Projects

Flix Maniac

React.js, Framer Motion, Node.js, Express.js, MongoDB, Tailwind CSS, and TMDB API.

Flix Maniac is a Full Stack project for movie lovers. It offers a dynamic movie database, secure user authentication, interactive UI with smooth transitions, and responsive design. Users can explore detailed movie information, watch trailers, and read or write reviews, all within a seamless and engaging platform.

Pokemon Website

React.js, Tailwind CSS, and JSON

Pokémon Website is built using the Pokémon API, allowing users to search for any Pokémon and gather information about the Pokémon series. Users can effortlessly explore and discover everything about their favorite Pokémon in an engaging and interactive platform.

World Time Zones

JavaScript, React.js, Framer Motion, and EmailJS

World Time Zones is a project that allows users to search for any country and get live timing information. It provides a seamless and interactive experience for tracking global time zones. Users can easily find accurate local times, compare different time zones, and stay updated with real-time data.
